Sir:

In response to the Examiner's Restriction Requirement dated March 22, 2002, the following election and remarks are respectfully submitted in connection with the above-identified application.

IN THE CLAIMS:

Applicants hereby elect Group I consisting of claims 1-6 for initial examination in this application. This election is with traverse. Since claim 7 comprises all of the details of claim 1 from which another, materially different product cannot be made, or since the inkjet head according to claim 1 cannot be made by a materially different process, for example, laser ablation, it is believed that all of the claims are properly examinable in a single application.
